

# iSQUASH ONLINE COURT BOOKING INFORMATION SHEET

## INTRODUCTION

The Online Court Booking software is available to all affiliated squash clubs in New Zealand and is another module of iSquash which has been developed to assist clubs in providing services to their membership. This is stage 1 of the access and security module and it will allow club members to make and manage court bookings from home and provide clubs with information on court usage. Stage 2 will link the system to an access system with online payment which will allow clubs to provide and manage access to their facilities on a "Pay for Play" basis. Stage 2 will also link the online booking to lighting, heating and security.

## BENEFITS OF iSQUASH ONLINE BOOKING

- Effective method of managing court bookings, allowing members to book courts from any internet connection
- Allows club control over their court booking rules – including number of days booked in advance and maximum number of bookings per member
- Links directly to the iSquash Membership Management database and Grading List
- Ability to link to an access system with online payment when required in the future
- Ability to link to lighting, heating and security when required in the future
- Part of a single solution for club management

## FEATURES OF iSQUASH ONLINE BOOKING

- The system is a locked down web browser that can only access iSquash Online Booking (ie. no other websites)
- The kiosk displays an updated current booking page for the site (without needing to login)
- Members can also login to the system (with their iSquash username and password) onsite, to amend bookings or perform any other functions of iSquash (eg. access the Grading List, Results Entry etc). If the member forgets to log out, the kiosk will reboot automatically after a fixed period of time.
- To ensure that no private information is retained the kiosk boots from the USB Flash Drive and does not allow any information to be stored.

## INITIAL COSTS OF INSTALLING iSQUASH ONLINE BOOKING

DESCRIPTION	PRICE (excl GST)	PRICE (incl GST)
<b>Small Kiosk PC</b> (for onsite display, bookings and management) Including processor, 19" LED Monitor, keyboard, mouse and cables	\$1026.51	\$1180.49

<b>TOTAL</b>	<b>\$1461.29</b>	<b>\$1680.49</b>

## Warranty

- Squash NZ will provide the following warranty:
  - one (1) year from date of purchase (excluding the USB Flash Drive) for the supplied hardware
  - six (6) months from date of purchase for the USB Flash Drive and its software
  - twelve (12) months from date of purchase for the hardware and preconfigured software if purchased as a complete package
- Squash NZ will **not** warrant the application or any other software/hardware when only the USB Flash Drive is supplied.

## Conditions of Sale

- The kiosk PC does not come in a secure enclosure. It is recommended that the screen and machine housing are enclosed to prevent damage or loss.
- The total cost does NOT include freight as this will depend on the delivery location
- Hardware pricing is as of 28-Feb-2012 and may vary due to price fluctuations and items being superseded.
- Installation is not included.
- All prices quotes are inclusive of GST (at 15%)

**Please note:** Clubs can use their own computer but Squash NZ cannot guarantee that Online Booking will work on this computer and cannot provide any support or a guarantee. The software WILL NOT work on a Mac Apple, it must be a PC.

## ONGOING COSTS OF USING iSQUASH ONLINE BOOKING

The only ongoing costs to a club are the costs of the broadband internet connection with a Static IP address (which is necessary for iSquash to identify which PC is the PC from your club so that it can display the correct calendar).

Note: Whilst the internet connection can offer WiFi to a club, the computer must be hard-wired to the modem.

## HOW TO IMPLEMENT iSQUASH ONLINE BOOKING AT YOUR CLUB

To set up iSquash Online Booking, clubs will need to contact Squash NZ who will provide:

- access to an iSquash test site for the club to familiarise with the Online Booking module
- confirmation of the latest costs and charges
- a configuration questionnaire for the club with details on the setup of Online Booking
- an order form for the club to select the products they wish to purchase from SNZ
- the club with details on how to install SNAP internet into their club (if required)
- Online Booking instructions for the club to amend and send out to all members
- ongoing support through the installation and setup process
