Up to 3 years

Time commitment:

8 meetings per year

Remuneration:

Unpaid

Incumbents re-standing:

No

Application closing date:

19/03/2019

Squash New Zealand is the governing body for squash in New Zealand. Its purpose, along with 11 district associations, is to make squash a healthy and enjoyable choice for a growing number of New Zealanders and for New Zealand players to succeed on the international stage.

200 member clubs provide leisure and competition programmes across the country, and a strong high performance programme has produced gold medal success at the Commonwealth Games and players with top 10 world rankings.

Squash New Zealand is undertaking the Sport New Zealand Governance Mark programme, and a recent Constitution change has introduced places for 3 Appointed Board Members alongside 6 Elected Members. The number of Elected Members will reduce to 4 at the end of the year.

The organisation runs with a clear line between the Board's governance role (including CE appointment, strategy and policy development and monitoring and risk management) and the Chief Executive's operational role implementing plans. A future focus, encouraging diverse views and open dialogue, and working with collective responsibility are important to us.

Do you have experience at a governance level? Are you a specialist in the area of audit and risk? Are you ambitious about squash high performance and events?

If you are a positive person and a team player, and can help us in some of the areas above, please get in touch by phone or email and send us a brief CV.

Applications will be considered by an independent Board Appointments Panel.
